About Callidus Capital Corporation

Established in 2003, Callidus Capital Corporation is a Canadian company that specializes in innovative and creative financing solutions for companies that are unable to obtain adequate financing from conventional lending institutions. Unlike conventional lending institutions who demand a long list of covenants and make credit decisions based on cash flow and projections, Callidus credit facilities have few, if any, covenants and are based on the value of the borrower's assets, its enterprise value and borrowing needs. Callidus employs a proprietary system of monitoring collateral and exercising control over the cash inflows and outflows of each borrower, enabling Callidus to very effectively manage risk of loss.
